VSO Software Newsletter n°22

April 2013

In this issue:

- **What's new?**
- **VSO Customer Satisfaction**
- **Did you know?**

This month, we introduce a new section: VSO Customer Satisfaction. This section will provide insights on what we do to gain your trust and praise, and reasons why you should buy from us.

What's new?

- VSO Downloader: now bringing you Dailymotion streaming!

Don't bother trying to download videos from [Dailymotion](#) with any other tool than ours: you'll fail. VSO Downloader is the only one that can do it ! (no limitation for [Ultimate](#) users). Download the new version [here](#).

- ConvertXtoDVD 5 price drop

We have decided to lower the price of the Lifetime of ConvertXtoDVD and make it more affordable to our die-hard fans who don't want to miss a single version of the software. [Buy it now](#) for only 69.99\$/57.99€ (the Lifetime option will appear in a pop up).

VSO Customer Satisfaction

- 100% ad free

What's more unnerving than to download a software and get your PC riddled with toolbars, spyware or other unwanted programs ? At VSO, this won't happen to you. All our programs are guaranteed 100% ad-free. We'd rather get our money selling reliable, trustworthy software than by tricking clients into installing toolbars.

Did you know?

- How to save your conversions to a USB Flashdrive ?

Did you know that you don't have to burn your conversions straight to DVD, but can also save them on a USB Flashdrive and/or hard disk? See how easy it is [in this guide](#).

- ConvertXtoDVD guide now in PDF format

You can now download the ConvertXtoDVD 5 manual. It used to be available online only, but we made a [PDF version](#) so you can consult it at any time.

If you want to contact us please use [support form](#) or our [Facebook](#) and [Twitter](#) accounts.

Bye for now!

The VSO Software Team
